24–30 June 2012 | Adelaide, Australia

WORLD CLASS PROGRAM
In a true example of regional co-operation, attendees will be challenged to Think Globally, Organise Regionally, Act Locally.

AGRICULTURE
- Food production (grains, oilseeds, etc)
- Fibre and pastures (cotton, hemp, etc)
- Multi- and intercropping
- Soil moisture and plant vigour monitoring

DRAINAGE AND FLOOD MANAGEMENT
- Waterlogging
- Salinity and water quality control
- Controlled drainage
- Flood recovery and risk management

WATER FOR THE ENVIRONMENT
- Water needs assessments
- Competition and sharing of multiple use of water
- Wetland management and environmental water supply
- International treaties, objectives and achievements

REGIONAL CO-OPERATION
- Knowledge dissemination and sharing
- Aid projects in urban and rural water management
- Globalism, regionalism, localism
- Virtual water: a form of water trade
- Together stronger

INTEGRATED WATER MANAGEMENT AT BASIN AND DISTRICT LEVEL
- Modernisation of irrigation and drainage
- Benchmarking water delivery services
- Water accounting
- Best business practice for irrigation water suppliers
- IT and water management

HORTICULTURE
- Urban and Turf irrigation
- Water sensitive urban design (WSUD)
- Production horticulture (fruit and vegetables)
- Best practice pressurised irrigation

AGRICULTURE
- Food production (grains, oilseeds, etc)
- Fibre and pastures (cotton, hemp, etc)
- Multi- and intercropping
- Soil moisture and plant vigour monitoring

DRAINAGE AND FLOOD MANAGEMENT
- Waterlogging
- Salinity and water quality control
- Controlled drainage
- Flood recovery and risk management
DELEGATE REGISTRATION PRICING
Access to all three components is offered at an introductory price of AUD$890 (inclusive of GST) for international delegates who register by 30 April 2012.

JOIN US
This combined event will be held in Adelaide from 24–30 June 2012, at the Adelaide Convention Centre.

Adelaide is a widely accessible city with over 100 departure points around the globe offering flights direct to Adelaide International Airport. International visitors will need to acquire a Visa to visit Australia. See the Australian Government website for information http://www.immi.gov.au/visitors/event-organisers-participants/participants.htm or call your local Australian embassy for assistance.

Adelaide has many options for accommodation, including hotels and apartments. A list of hotels and rates will be available on the 2012 official conference website, and you will be able to request your preference during the registration process.

24–30 JUNE 2012 | ADELAIDE, AUSTRALIA

CALL FOR PAPERS
Be heard at Irrigation Australia 2012 and the 7th Asian Regional Conference.
Support the development of the irrigation industry and submit a paper for consideration by the Conference Committee. Papers for the 2012 event will be accepted under the following streams: Integrated water management at basin and district level; Horticulture; Agriculture; Drainage and flood management; Water for the environment; and Regional co-operation.

Initial abstracts of papers will be accepted from November 2011, with submissions closing in January 2012. Papers will be submitted via the online portal. Register your interest now to be kept up to date by emailing IAL2012@saneevent.com.au

EXhibition ON A GRAND SCALE
Promising to be the largest irrigation show in the Southern Hemisphere! As well as the visiting trade, the opportunity for interaction between the conference and exhibition will drive engagement with the innovators of technology in the commercial sector, at the expected 130 plus booth exhibition.

24–30 JUNE 2012 | ADELAIDE, AUSTRALIA
ENJOY A MIX OF LEARNING & LEISURE

As part of Irrigation Australia 2012, attendees are invited to join a variety of Technical Tours as well as Leisure Tours.

TECHNICAL TOURS

Commencing on Friday 29 June, the technical tours will encompass local and regional irrigation projects.

TECHNICAL TOUR – OPTION 1

Day tours to various locations showcasing the use of recycled water for irrigation, high intensity hydroponics, a desalination plant and an irrigation equipment factory.

TECHNICAL TOUR – OPTION 2

Four day/three night tour to Northern Victoria and the Great Ocean Road including visits to the irrigation modernisation projects.

24 – 30 JUNE 2012 | ADELAIDE, AUSTRALIA

LEISURE TOURS

On Saturday 30 June a number of leisure tours will commence.

LEISURE TOUR – Kangaroo Island, South Australia:

KI, as the locals call it, offers endless options for water based activities such as fishing, swimming, sailing, surfing, scuba diving and boating. The Island has become well known as a place to see wildlife including penguins, Australian sea lions, New Zealand fur seals, koalas, heath goannas, tammar wallabies and the kangaroos that give the Island its name. The spectacular coastline also offers magnificent views, historic lighthouses and remnants of over 50 shipwrecks.

LEISURE TOUR – Ayers Rock, Northern Territory:

Ayers Rock – traditionally known as Uluru – is the world’s greatest monolith at 9km in circumference, and rises 348 metres above a wide, sandy floodplain covered in spinifex and desert oak. The enormous size of the rock is astounding when you realise that it is estimated about two thirds exist below the ground. Depending on the position of the sun during the day, Uluru changes colour from shades of fiery red, delicate mauve, blue, pink and brown, and rainfall creates a silver veil over the entire rock. A 9km walking track circles the base of Uluru giving visitors the opportunity to see some Aboriginal rock art and also the Mutitjulu Waterhole.

24–30 JUNE 2012 | ADELAIDE, AUSTRALIA
LEISURE TOUR – Sydney, New South Wales:
Sydney is Australia’s most populated city and is located on the east coast of New South Wales. The city is famous for its harbour, beaches and inner-city precincts. You can see dawn break from the top of the Harbour Bridge or the sun set on the Opera House. Fine dine along the Woolloomooloo finger wharf, take the ferry across the harbour to Manly beach, or walk from Bondi beach to Bronte along the spectacular sea cliffs.

LEISURE TOUR – Great Barrier Reef, Queensland:
One of Australia’s most remarkable natural gifts, the Great Barrier Reef is blessed with the breathtaking beauty of the world’s largest coral reef. The reef contains an abundance of marine life and comprises over 3000 individual reef systems and coral cays and literally hundreds of picturesque tropical islands with some of the world’s most beautiful beaches. The Great Barrier Reef is one of the seven wonders of the natural world. It is larger than the Great Wall of China and the only living thing on earth visible from space.

24 – 30 JUNE 2012 | ADELAIDE, AUSTRALIA
